

Comment to FCC:

K-Love is a family friendly radio station that my family listens to daily. I never have to worry about what my ten year old daughter may hear on it. It's all positive and inspirational. I think it is a big mistake if K-Love were to be displaced by an LPFM broadcaster providing other programming. A big part of our community listens to K-Love and enjoys the benefit of it services. K-Love provides wholesome valuables and is an encouraging impact on the communities in my area. When I listen to K-Love I feel inspired, encouraged, and blessed that I have a radio station that can not only help me be more positive but also can provide good values to my daughter. To take K-Love off the air would be an injustice to me, my family, and my community.
